

EQUESTRIAN WASTELAND SIM - PROJECT BIBLE

Master Game Vision & Roadmap Archive

Roadmap Packages:

- Package A: Asset Viewer & Code Injector
 - Package B: Dev Gallery & Asset Registry
 - Package C: Rig Lab Keyframe & Pose Timeline
 - Package D: Touch UI & Dev Kit Shell
 - Package E: Job Runner + 3D Pathfinding
 - Package F: Water on Every Level
 - Package G: Base Structures onto 3D Grid
 - Package H: Weather Lighting & Atmospheric System
 - Package I: Exploration Wasteland Map
 - Package J: Pony Picking & Physics Carrying
 - Package K: Build Mode & Wall/Floor Painting
 - Package L: Stairs, Elevators, & Vault Doors
 - Package M: Foundations (M1-M14)
 - Package N: Materials Repository (60 materials in src/data/materials.ts)
 - Package O: Consumable Taxonomy & Contraband Ingestion (Nutrient Paste Slurry, Solid vs Liquid State Decoupling, Smuggled Lockpick & Jailbreak Pipeline)
 - Package P: 3D Character Mesh & Master Index Architecture (EWS-INDEX/1, Chunk Scanning Registry, Unified Shell Layers, Sphere Respect Surface Constraints, 3D Mesh in 2.5D World)
 - Package Q: Master Zero-Bar UI Law & Behavioral Director (100% borderless 3D viewport, 3 corner glass orbs, draggable Revolver 6-shooter dial, sliding sheets, Nude Base View, Action Director pairing & intensity steppers)
 - Package R: Wasteland Sociology, Childcare & Potty Training (Settler cleanliness vs Feral/Wild wasteland elimination, foal diapers, potty training skill levels 0-2, sanitation dissatisfaction)
 - Package S: Two-Piece Modular Mane & Toon Shape Language (Anti-photorealism law, chunky volumetric toon ribbons, Nape/Crest dorsal ridge flow + Crown/Forelock brow fringe + S-curve tail)
-

Architectural Stacking Order:

1. [GHOST.md](#): Core rules, state tracking, and protocol safety.
2. [MASTER_INDEX.md](#): Modular chunk scanning registry and unified 3D mesh architecture for AI models.
3. [PROJECT_BIBLE.md](#): Game vision and package specifications.
4. [Stable-Tec_Master_DevKit_Studio.html](#): Interactive 3D modeling and animation workbench.
